01/Story

The Pappaloro story is one of the here and now which spans generations and designs, needs and desires, interpreting the unpredictability of time as an opportunity and regarding consistency as a constantly evolving process. From 2005, the year in which The Friends Mohamed and Ahmed began working, and which represents this mythical entrepreneurial “starting point” certain distinctive characteristics can already be detected. These would remain over time, maintaining and renewing themselves in the interpretations of styles and demands of design and the different eras. These traits derived from a deeply rooted relationship between man and matter and are the basis of the very idea of living.

Pappaloro Furniture was born in a very rushed lifestyle in Cairo, Egypt, where Life is busy, crazy, hectic, stressful, and somewhere in the middle of it all, you're supposed to breathe – and eventually find time for ourselves and our family, What is needed is somewhere where productivity goes side by side with relaxation and socialization, where necessity meets fun. We believe in having it all, we believe in the contradiction. A welcoming, natural and happy space at your home.

02/Philosophy

Our understanding of luxury home is when design meets customer's personality with a product that belongs only to you. A product can tell people about you, your personality, your taste, your ambition and life attitude. A product can be an invisible and silent emotion in communication with you and you can feel its exclusive charm. Pappaloro Collection makes a sensitive and luxurious products while creating a concept of exquisite lifestyle.

The contemporary home is an infinity of possibilities which Pappaloro interprets through P/Style, a total look program of furniture and decor in which every piece communicates and interacts, establishing aesthetic intimacy and emotional comfort with its users and which goes beyond any traditional kind of representative design.

Tables and chairs, armchairs and sofas, beds and lamps, all the elements that make up P/Style offer transversal answers that overcome the usual distances between domestic styles and atmospheres and introducing a certain “something more” into interior design that resists the ebb and flow of fashion and tastes. The overall vision developed by Pappaloro opens a new era in integrated interior design: P/Style is your key to taking part.

Craftsmanship

Crafting experiences not objects

Our collaborators, craftsmen and tailors are rarely, if ever scared to try new things, it is our ethos that 'experiences make the product', not science. By trying, we learn, by experimenting we grow by being courageous, we make memories. We study, we talk, we identify, we feel different things from the raw materials, what we get is something different, every single time. Where one sees a wood, metal and cloth, we see a craft, a desire to bring pleasure to the soul and delight for years to come. This is more than objects, it's about creating an experience each and every time.
